The Sentinel and Capt. Becker.

Under the above head, some one who signs himself "Big Gunn," communicates to the *News* a piece of falsehoods in an attempted explanation of the miserable trick by which the Whigs were prevented from having the use of a cannon for firing a salute at the rally on Saturday evening.—Considering the burst of indignation with which the better part of the "democracy" learned of the shabby performance, it is no wonder that those engaged in it are anxious to excuse themselves.—They shall not get off so easily with their false statements.

The precise statements made by "Big Guns," are briefly these:

1. That *"last Saturday,"*—to use the writer's words—"Mr. FILLMORE, a gentleman connected with the *Sentinel* Office, called upon Capt Becker, and gave him an order for three kegs of powder, remarking that as the 4th was to be celebrated, he, (the Capt,) had better make up a round of 31 cartridges, and fire them as a national salute, at 6 o'clock Saturday evening."

2. That Capt. B., 'in the innocence of his heart,' agreed to fire the said salute, but *on the suggestion of certain friends* that the salute was intended to call the "Whig meeting" together, he "declined firing a salute gratuitously, for any such purpose."

3. That Capt. B. "sent word to Mr. Fillmore, that he could have as many salutes as he wanted, by paying for them," and that "the only obstacle to carrying out this arrangement was, that Mr. F. did not see fit to pay in advance, the price demanded."

4. That "in regard to the cannon belonging to the Washington Guards, the Whigs could have had the gun by hiring those who usually worked it, to man it for the occasion. But two of them were sick, and they refused to pay the others the price they asked"

The remainder of the article, concerning the watching of the cannon at Military Hall, for fear the wicked Whigs would storm the battery, is simply absurd, and requires no answer.

Now mark how the plain truth will put down the wild assertions of the *News'* correspondent.

1. On *Thursday*, July 1, a bargain was made with Capt. Becker, to fire a salute of 100 guns.—The powder (3 kegs) was purchased of T. LITTELL, and the order delivered to Capt B. on Thursday evening, who procured the powder next morning. He had one keg of his own, which he was also to furnish, and make the cartridges 1 lb. each. There is no shadow of foundation for any mistake as to the object of the salute.

2. Neither is there any doubt that the deeply interested friends of Capt. Becker labored hard with him in the interval, until they succeeded in persuading him to submission.

3. After nearly two days had thus passed from the time when the contract was made, a German —easily identified—brought into our office an envelope containing the following communications —this was at about 10 o'clock Saturday morning. He dropped it on the table in great haste, saying "I have nothing to do with it—I only bring it for another man"—and went out in a hurry.—Here are the contents:

John S. Fillmore, Esq.,

It seems to me that there must be a misunderstanding on account of firing my cannon on today. As far as I am aware, you rented my cannon as Marshal of the Day, exclusively for the purpose of firing on the Fourth of July, and I would herewith respectfully inform you of my *utter inability of my letting you have it on to-day.*

Yours, G. BECKER.

Milwaukee, 3d July, 1852.

MILWAUKEE, July 3, 1852,

To Mr. John S. Fillmore, Esq.:

The undersigned offers to do the cannon firing, say 50 guns at the celebration next Monday, as may be ordered, for the sum of $25.

Respectfully, G. BECKER.

(The last is in a different hand from the signature.)

Persons were sent to find Mr. Becker at once, to remonstrate against this conduct, but the closest search during the day failed to trace him out. He had been well hidden.

4. Knowing that the cannon in possession of the Washington Guards was long ago purchased by a subscription of the citizens, and that it had only been handed over to that Company by a majority of those subscribers, application was made in the proper quarter for the use of that gun. The answer was, that "the company had passed a resolution that their gun should not be used for any political purpose of any kind." The refusal was absolute and unconditional.

These are the facts in the case, easily susceptible of proof, were any needed. We leave them to be digested.

A Plan for the West (?)

We have long ago given the record showing how Franklin Pierce, the "democratic" candidate for President, all through his Congressional life, was consistent in his bitter opposition to internal improvements, even opposing and voting against bills which Gen'l Jackson signed. Here is another note from the record:

On the 28th of February, 1839, in the U. S. Senate, Mr. Ruggles, of Maine, moved the following: "And be it further enacted, that the sum of two hundred thousand dollars, out of any money in the treasury not otherwise appropriated, be and the same is hereby appropriated, to defray the expenses of erecting military works at the head waters of the Penobscot river, also on the head waters of the Kennebeck, also on the head waters of the St. Croix river, also at Eastport, and at Bangor, and on the Penobscott, opposite Bucksport—all in the State of Maine."—

Mr. Pierce voted AYE!

Mr. Fulton, of Arkansas, moved the following amendment: "And be it further enacted, that the following sum be and is hereby appropriated, to be paid out of any money in the treasury not otherwise appropriated, for the construction of barracks, quarters, store houses, hospitals, and stables, and the necessary defences of the posts already occupied, or such additional posts as it may be deemed proper to establish for the better protection of the Western Frontier, one hundred and twenty thousand dollars."

Mr. Pierce voted NO!

For protection to life and commerce on the Western lakes and rivers, Mr. Pierce had nothing but strenuous opposition.

Fortifications on the coast of Maine were, in his view, constitutional and just; but the great Lakes, and the Western rivers, and the widely extended frontier, are beneath any notice except his contemptuous negative votes!

PEOPLE OF THE WEST! Is that the man for your support? ANSWER in November!

ANOTHER STEAMSHIP.—A new steamship of the first class, called the CORTES, has just been sent around the Horn, to run from Panama to San Francisco in connection with the *Winfield Scott*.

For the Daily Sentinel.

Mr. Roesler, we understand, was formerly a Democrat, then a Free-soiler and now a Whig.—*Morning News.*

To be sure Mr. R. was a Democrat, and he *is* one still, though never a *Locofoco*. Here and abroad he went for equal rights: the inalienable rights of life, liberty and the pursuit of happiness *for all men*. He never, therefore, could be a member of a party which *denies* these inalienable rights to several millions of their fellow-men on account of the color of their skin—a party, which for 20 years past, has been the instrument of subduing the Free North to Slave States by platforms, votes and policy; cutting Southern dirt to the utmost; making it a *sine qua non* even for the lowest constable in a free State to favor man-hunting; betraying the interest of the Lakes and Rivers of the great West to the Southern grudge, for the sole sake of the "loaves and fishes," of which the great leaders partake largely in Washington, and the little ones in the State, County and Charter elections—this party, which has no more of *true* democracy, or of Jeffersonian principle about it than the Czar of Russia has of the spirit of Liberty, Mr. ROESLER never *did* belong to, and probably never will. Being a friend of universal liberty, he goes, of course, for Free Soil, and hating Slavery and kidnapping he is decidedly opposed to the *candidate* of the Slaveholders and Kidnappers; be his name Pearce, Pierce, or Peirce. Having made up his mind to go for the "best man," for whom else *could* he go than for WINFIELD SCOTT? But a Whig Mr. Roesler is not, and a Locofoco he never was. R.

FOURTH OF JULY AT FORT WINNEBAGO.

FORT WINNEBAGO, July 5th, 1852.

Gentlemen:

* * * * * * * * * * * * *

We are just after having our celebration, which has passed off in fine style. The oration by H. S. ORTON, Esq., was an able production, entirely suited to the occasion, and was often received with hearty applause,—which told much in its behalf when it is considered that much of the opposition to the Fox River Improvement is attributed to his management. But this was all forgotten before he was ten minutes on the stand, and at the conclusion, a vote of thanks to the Orator, was passed with a heartiness that proved that the sound, conservative and Republican sentiments, he so ably expressed, found a cordial echo in the hearts of his audience.

I will not attempt to give you anything like an outline of the discourse, as it has been requested for publication, by a vote of the large and respectable audience, who had the pleasure of hearing it, but hope to do so as soon as I can get a copy.

Yours, &c.,

PORTAGE CITY.

Correspondence of the Daily Sentinel.

BARABOO, Wis. July 5, 1852.

Anniversary of the Battle of Chippewa.

Messrs. Editors:

The mail is closing, or I would say something of old Chips prospects in this county. The Locos held a ratification meeting to-day, but old Chip will route them as badly in November next, as he did the British troops this day thirty-eight years ago.

Very respectfully, P.

HENRY CLAY.

A correspondent in yesterday's *Morning News* calls for appropriate honor to the memory of HENRY CLAY. Such honors are indeed eminently due to the Great Commoner, and Milwaukee should be prompt to pay them. Elsewhere, throughout the Union, measures are in progress to testify the feelings of the People towards the departed Statesman and Orator of Kentucky. Here too we hope to see a like ceremonial. Shall we have it?

THE FOURTH AT WATERTOWN.—We regret to notice that a portion of the German citizens of Watertown insisted upon celebrating the late Anniversary on Sunday, instead of Monday. The *Chronicle* says that "this celebration of the 4th of "July upon the Sabbath, was something new to "our citizens generally, and was regarded by ma- "ny of them not only as an outrage upon the "moral sentiments of the community, but as a "desecration of the Sabbath."

A public meeting was called and a committee appointed to confer with the directors of the celebration and endeavor to persuade them to defer it till Monday. But the effort was unsuccessful, whereupon the meeting again convened and thro' the medium of a committee adopted and published a protest, which closes thus:

A reproach and an injury will, we fear, be brot upon the character of this community, by the proceedures of those who shall conduct this Sabbath celebration. We have desired, therefore, to express our decided disapprobation of those proceedures in the most public manner, that it may be known, that the large body of our citizens are not responsible for them, and that they may not have to share in the disgrace which may come upon our village in consequence of them.

In behalf of many citizens,

N. C. CRAPIN, } Com'tee.
M. HOYT, }
ALEX. MOORE, }

ERRONEOUS STATEMENTS.—The statement in Wednesday evening's *Free Democrat*, that a daughter of Gen. Scott is now a member of the religious community at Georgetown, D. C., is incorrect. The young lady referred to has been dead for several years.

The statement in the same paper that the Catholic Council at Baltimore passed a resolution, subject to the' approval of Pius the Ninth, that Mass be said, or sung in English, is also incorrect. Nothing of the kind, we are authorized to say, was suggested at the Council.

THE "FREE DEMOCRACY" ORGANIZING.—The *Free Democrat* of last evening contains the proceedings of a Mass Meeting of the Free Soilers held at Elkhorn, on the 6th inst., at which it was resolved to send delegates to the Free Soil National Convention, to be held at Pittsburgh on the 11th August. The *Democrat* closes its notice of the meeting with the following:

"Walworth County will give a larger Free Soil vote, next fall, for Durkee and the Freesoil candidates, than she has ever done since the organization of the Free Democratic party."

We infer from this, that MR. DURKEE intends to run for Congress again next fall.

POST OFFICE DOINGS.—The following new offices have been established in this state:

Name.	Counties.	P. M.
Arlington,	Columbia,	A. W. Towsley.
Little Grant,	Grant,	C. Underwood.
Aurora,	Washington,	A. C. Crow.
Romance,	Bad Axe,	J. Hackness.
Triade,	Walworth,	A. McBride.
Charlotte,	Grant,	N. S. Way.

The offices at Badger, Fond du Lac Co., and Bloomingdale, Winnebago Co., have been discontinued, and the name of the office at Genoa, Walworth Co., changed to South Bloomfield.

BOTH ALIKE.—When Gen. Pierce was in Congress he was among the most uncompromising enemies of River and Harbor Improvements. And Senator King is now equally hostile to such Improvements. Last year he fought the Harbor Bill in all its stages, and succeeded, by the aid of his co-minority factionists, in killing the bill by talking against time. Two more inveterate enemies to River and Harbor Improvements cannot be found in the Union. Can the people of the northwest give such men their suffrages?

GREAT WHIG GATHERING.—A gathering of the friends of WINFIELD SCOTT is to be held near the battle ground of Lundy's Lane, on the 25th of this month, the anniversary of that battle, where the young General won such imperishable laurels. There will be crowds present from all quarters.—The Whig Central Committee of Niagara County met at the Falls yesterday to make arrangements.

ACCIDENT.—At the recent Sunday celebration by a portion of the Germans, at Watertown, a young man named Auguste Stoppenback had his ancle broken by the wheel of the cannon carriage running over it.

OUR RAIL ROAD BONDS.—The bonds of the Milwaukee and Mississippi Rail Road Company are now held at par in Wall Street. They will ere long command a premium.

City Matters.

The Theatre.

There was large and handsome array of ladies at the Theatre on Wednesday evening, and very general satisfaction with the entertainment provided by Mr. RICE. The first play was the "Lady of Lyons," an old favorite with Theatre-goers. Miss DEAN sustained the character of Pauline with her usual ability; looking and acting the part to a charm. Mr. PERRY made an excellent Claude, and Mrs. RICE, as Madam Deschappelles, surpassed herself. The other characters were also well filled and the piece throughout was admirably performed. At the close Miss DEAN was again called before the curtain and received with tumultuous plaudits and a shower of bouquets. In the capital afterpiece, "A Morning Call," Miss DEAN and Mr. PERRY, who sustained the only two characters in the play, won fresh laurels by their natural, spirited and effective acting.

To-night, the bill includes "the Stranger" and "A Morning Call;" Miss DEAN and Mr. PERRY in both pieces. "The Stranger" is one of the sure cards in the Dramatic repertory. It always draws well, especially with so accomplished an Artist as Miss DEAN to play the part of Mrs HALTON. As for the Vaudeville, "A Morning Call," which is to be repeated this evening, we advise all who enjoy a keen encounter of wits between a clever man and a fascinating woman, each armed for and determined on conquest, to visit the Theatre this evening.

Menomonee Foundry—Locomotives.

We took a walk through the well-known Foundry of Messrs. W. B. WALTON & Co., on Walker's Point, yesterday, and to our surprise found that a complete revolution had taken place in the establishment since our last visit. Then, they were at work turning out large numbers of steam engines for mills, factories, &c., besides the usual variety of work done in the line of their business.

Now, nearly their whole force is employed upon RAILROAD LOCOMOTIVES, and to them must be given the credit of starting first in the enterprize west of the great lakes. Since last November, they have been employed in making and fitting the extensive and powerful machinery necessary for the purpose. *Seventy* hands are now employed, and they have the machinery for 30 more. Over $10,000 has been expended in fitting machinery and tools before they could get at work upon their first locomotive, but that done, they are now able to push along rapidly. Their first machine will be ready for the road early in August, and after that time they will be able to turn out one each month. It is a sight worth seeing, when their 30 horse power engine is driving the innumerable lathes of strange shapes, planes for various purposes, drills, &c., &c. Here a huge wheel, cut through in every direction with holes, has a cylinder screwed to it, while as the victim passes around, the keen cutter takes off a morsel here and a morsel there, obedient to its rule. There is a 15 inch cylinder, standing upright in another machine, while a curiously constructed augur is quietly boring the insides out of it, to a smooth surface and certain guage. Each machine does its own appropriate work, and does it well. In the boiler shop, our old acquaintance NELSON SEMPLE and a large gang of hands, are hammering into shape, and putting together the boiler and tender. In the blacksmith-shop some 9 forges are occupied by stout fellows, working into shape the various pieces of iron necessary for the finished work. Above stairs are the pattern shops, where a good force is constantly employed.

The first locomotive will rate at about 24 to 30 tons, and we shall look with interest to its trial. The general reputation of Messrs. WALTON & Co's work is such as to give a guarantee that, in their new enterprise, they will have abundant success, and give full satisfaction.

We should mention that in the casting shop, the usual amount of work is done, without interfering with the locomotive business.

COUNTERFEIT MONEY.—The attention of those interested (as which of us is not?) in the distinguishing marks between genuine and counterfeit Bank notes, is invited to the advertisement of Mr. DYE in this mornings paper. His counterfeit Detectors, Coincharts, &c., are exceedingly useful and if kept at hand will be found of great service in detecting *bogus* money. An opportunity will be offered to our business men to-day and to-morrow, of examining and subscribing for, these works.

WORTHY OF MENTION.—We learn from Police Justice WALWORTH that he had not a commitment to make, nor complaint to hear on Tuesday morning last. The celebration of the Fourth on Monday was as orderly and harmonious, as it was general and enthusiastic.

YOUNG MEN'S ASSOCIATION.—The Library of the Association will be opened to-morrow afternoon. Members who are in arrears are respectfully requested to come forward and pay up their duties. The Association needs and is entitled to this "material aid."

From the National Intelligencer.
A Merited Tribute of Respect.

TO THE HON. DANIEL WEBSTER.

Dear Sir:—A number of members of the Senate and House of Representatives, in testimony of their personal regard and high appreciation of your distinguished public services, desire the pleasure of giving you a public dinner, on such day as may suit your convenience.

Louisiana Avenue, }
Monday Evening, June 28, 1852. }

Gentlemen:

I have the honor to acknowledge the receipt of your communication, inviting me, on behalf of a number of the members of the Senate and House of Representatives, to meet them at dinner at some convenient day.

I consider this invitation a distinguished honor, which I cheerfully accept, but am unable to fix an early time for complying with it.

I am now on the point of setting out on a short visit to Massachusetts, which I cannot well postpone. But there is a far more interesting and public reason, which I cannot but regard; that is, that a great calamity seems to be immediately pending over Congress and the country, which calls our thoughts to other contemplations, and which, when it happens, will impose upon the two Houses, the performance of melancholy duties.

I have the honor to be, gentlemen, with very great respect, your obedient servant,

DANIEL WEBSTER.

GEN. BRADY AND GEN. SCOTT.—The Detroit *Advertiser* publishes the following interesting anecdote, giving the testimony of the gallant old Gen. Hugh Brady to his companion in arms:

A few days before the fatal accident occurred which deprived the U. S. service of one of its brightest and most valued ornaments, and Detroit of an endeared and cherished citizen—Gen. Hugh Brady, while he was taking his usual morning walk, he was escorted by a gentleman of this city, who was to start for Washington, and who informing Gen. Brady of that fact, asked if he could do him any service at the Seat of Government. "Yes" replied the Veteran—"Call on Gen. Winfield Scott, give him my kind regards, and tell him from me that having lived to see him win every field on which he has fought, I hope yet to live to see him win the great Presidential field of the Union in 1852." Gen. Brady alas, is no more, but had he been spared, his patriotic wish would have been fulfilled.

FATAL ACCIDENT AT TWO RIVERS.—We are pained to learn, by a private letter from Two Rivers, that an explosion of gunpowder took place there during the celebration on Monday last, which fatally wounded six persons and seriously injured ten or twelve others. We are, as yet, without further particulars of this sad accident.

PHELPS HOUSE, BUFFALO.—A friend begs us to make favorable mention of the Phelps House, Buffalo; where neat rooms, a well-furnished table, attentive servants and polite and accommodating landlords await the weary traveller, and tempt to longer stay.

Another Hulsemann Letter.

The following letter of Mr. WEBSTER to Mr. McCURDY, M. S. Charge d'Affaires at Vienna, has recently been communicated to the Senate. The Austrian Envoy has been badly handled throughout, in his intercourse with the American Secretary:

The Secretary of State to Mr. McCurdy.

DEPARTMENT OF STATE, }
WASHINGTON, June 5, 1852. }

C. J. M. CURDY, Esq., &c., Vienna:

SIR: I transmit a copy of a note of the 20th April last, addressed to me by the Chevalier Hulsemann, announcing his intention of returning to Austria. The note reached me in Baltimore, I being then bound on a visit to Massachusetts, from which I have now lately returned. On receiving it I directed Mr. Hunter to return the answer, a copy of which is also herewith inclosed. It is obvious, from the tenor of all his recent communications to this Department, that the Chevalier Hulsemann's experience in the diplomatic service of his Government has not instructed him accurately in the nature and limits of his official functions, and that notwithstanding his long residence in this country, he is quite misinformed as to the character of our institutions and the responsibilities of public men in the United States for their acts or their sentiments in a private capacity in regard to foreign powers. The Chevalier Hulsemann came hither, in 1835 as Secretary of Legation under the highly accomplished Baron de Maroschall, who was accredited as Envoy Extraordinary of his Imperial Majesty. Ever since the retirement of that gentleman, he has acted as Charge d'Affaires, but so far as we are aware, without any regular commission from his Government.—It is certain that he has never been accredited to the Department by the Austrian Minister for Foreign Affairs. The Chevalier Hulsemann, it appears, has yet to learn that no foreign Government or its representative can take just offence at anything which an officer of this Government may say in his private capacity. Official communications only are to be regarded as indicating the sentiments and views of the Government of the United States. If those communications are friendly in their character, the foreign Government has no right or reason to infer that there is any insincerity in them, or to point to other matters as showing the real sentiments of the Government. You will see, from the Chevalier Hulsemann's note, that he made an appeal to the President against what he called "newspaper improprieties and unofficial remarks of the head of this Department." The President, actuated by a honorable desire to preserve unimpaired the friendly relations between the two Governments, waived ceremony and unofficially listened to him. In pursuing this course, however, he by no means intended to allow the Chevalier Hulsemann to suppose that he was not well aware of his official position. The Chevalier Hulsemann should know that a Charge d'Affaires, whether regularly commissioned or acting as such without commission, can hold official intercourse only with the Department of State. He has no right even to converse with the President on matters of business, and may consider it as a liberal courtesy that he is permitted to hear at all. I take it for granted that if you should imagine the Austrian Minister for Foreign Affairs had offended you, you would claim no right of appeal to the Emperor. Although usually we are not rigid in these matters, yet a marked disregard of ordinary forms implies disrespect to the Government itself. I shall not of course notice the specific subjects of complaint of the Chevalier Hulsemann,—whatever is personal to him must be allowed to pass without observation.

You are at liberty to read this despatch to the Austrian Minister for Foreign Affairs.

I am, Sir, respectfully, your obedient servant,

DANIEL WEBSTER.

Gen. Scott and Gen. Jackson.

From the N. Y. Express.

We have before alluded to the letter of General Jackson which has appeared in several of the papers in the country since the nomination of Gen. Scott, in regard to the differences that existed thirty-four years ago between him and General Jackson. That letter reappears from day to day, and with a design to prejudice the minds of some against the nominee of the Whig party, by arousing that unfortunate, on the one hand, which is supposed to exist in the breasts of many for Gen. Jackson, and to create a corresponding hate, on the other, against Gen. Scott. In order, however, to make the matter appear plausible, they publish a one-sided statement of the facts, without giving the origin or the cause of this correspondence.—We find in the National Portrait Gallery, the following brief history of the whole affair:—

"In 1817, Gen. Jackson having issued an order that no commands proceeding from the War Department should be obeyed unless they came from him, and this order being the subject of conversation in a company in which Gen. Scott was present, he expressed an opinion unfavorable to it. His remarks, colored and distorted, having been conveyed to Gen. Jackson by an anonymous correspondence, he addressed a letter to Gen. Scott upon the subject."

To which Gen. Scott, in a respectful and manly manner, replied as follows:—

"Conversing with some two or three private gentlemen, about as many times, on the subject of the division order dated at Nashville, April 20, 1817, it is true that I gave it as my opinion that that paper was, as it respected the future, malignous in its character and tendency, and, as it respected the past, a reproach of the Commander-in-Chief, which, in the United States: although the latter be not expressly named, it is a principle well understood that the War Department, without at least his supposed sanction, cannot give a valid command to an ensign.

"I must pray you to believe that I have expressed my opinion on this great question without the least hostility to yourself personally, and without any view of making my court in another quarter, as is insinuated by your anonymous correspondent. I have nothing to fear or hope from either party."

Gen. Jackson was not satisfied with this reply, and immediately offered a meeting to Scott, if he felt himself injured by the language he had used. Gen. Scott in reply, said:

"He thought of New Orleans and some other affairs in which both parties were engaged; and it appeared to him that a brace of pistols could add nothing to the character of either. He conceived that, at the age he had then attained, some little reputation for moderation and temper began to be an object worthy of consideration. That it did not object seriously even to him that the courage of either could be put in question, and therefore he found himself perfectly at liberty to consult his sense of justice and propriety, rather than his passions."

The matter, however, was finally dropped, and in 1825 the differences which had for many years existed between these two men were amicably settled, and for several years afterwards they were on intimate terms. At the time of General Jackson's death, Gen. Scott was at West Point, attending the annual examination of the students, and was President of the Board of Examiners. Immediately upon the receipt of the news of Gen. Jackson's death, he addressed the Board of Visitors as follows:

"Ex-President Jackson died at the Hermitage on the 8th inst. The information is not official, but sufficiently authentic to prompt the step I am about to take. An event of much moment to the nation has occurred. A great man has fallen. Gen. Jackson is dead—a great general and a great patriot, who had filled the highest political station in the gift of his country twice. He is dead. This is not the place, nor am I the individual to pronounce a fit eulogy on the illustrious deceased. National honors will doubtless be prescribed by the President of the United States; but, in the meantime, and in harmony with the feelings of all who hear me, and particularly with those of the authorities of this Institution, I deem it proper to suspend the examination of the cadets for the day, and to wait the orders of the Executive of the United States on the subject."

If it were true, even, that General Jackson died entertaining the opinion of General Scott which are expressed in his letter, the history of this whole transaction would show Gen'l Scott to be more of the man and the Christian than his antagonist.

THE SOLDIERS IN THE FIELD.—We notice that among the Speakers at the Whig Ratification meeting at Pittsburg, on Monday evening last, there were no less than three of them who served in the war with Mexico, under the command of Gen. Scott and two of whom have heretofore been Democrats, and acted with that party. They were Capts. Charles Naylor and Robert Porter, and Mr. Crawford. Capt. Naylor said that those who followed the commander of the American army all had would follow him at home and thousands were with him in the field, would not turn their backs to his standard: but would rally round the same eagle in the coming campaign. Capt. Porter expressed the highest satisfaction at the nomination. Mr. Crawford said he was a private soldier under Gen. Scott, and could not forbear saying a word on this occasion. He had always been a Democrat, and was one still; and had not the present nomination been made, he would have gone heart and hand for Pierce. But he could not forget the brave and gallant commander he followed so long, and he should use all his influence for the election of Gen. Scott.—*Cleveland Herald.*

RAIN.—The long continued drought was beginning to affect the crops in the ground very materially, and its effects upon the grain was beginning to excite alarm; but on Wednesday evening a plentiful fall of rain, refreshed the thirsty earth and came in such a manner as to benefit the farmer, and to gladden his heart.—*Watertown Register.*

☞ The "Pierce and King Club" of this city, No. 1," refused to pass resolutions expressive of regret at the death of Henry Clay. Resolutions were offered, discussed and withdrawn.—*Boston Atlas.*

DEATH OF AN OLD CITIZEN.—The Albany papers announce the death of JAS. STEVENSON, an old, wealthy and highly respected citizen. He died after a brief illness, of inflammation of the brain.

TRIBUTE TO GEN. SCOTT.—The Oquendburg News, a paper conducted with marked ability, but strictly *neutral* in politics, pays a handsome tribute to the Whig nominee for the Presidency. Opinions from such a source, unbiased by political predilections, are entitled to great consideration.—The News says:

The Whigs have made their nomination for President—Major Gen. Scott, the greatest chieftain of the age, a Whig of undoubted Whiggery, who never had his character assailed, and who is even by his enemies, considered like Rayard, *sans peur et sans reproche*. Few men in this country have a more world-wide reputation; and we dare some hundreds who never voted the Democratic ticket before, will step forward to support the soldier of many fields who was the first on two continents, to break the *prestige* of English invincibility.—The foreign population will remember reprisals made to sustain the sanctity of American citizenship, and the natives of the soil will remember one who has done so much to make the country illustrious. On the whole, we think Gen. Scott most formidable man, and are sure he is the very person the Democrats wished not to be nominated.

Gen. Scott in the West—Cheering Prospects.

Correspondence of the New York Daily Times.

Washington, Friday, July 2, 1852.

Important information is arriving in from the West, showing that Gen. Scott's chances of success are increasing, and are already superior to his opponents. My information is derived entirely from Democratic sources. The Democratic members of the House are, I assure you, very much discouraged to-day.

From Kentucky, the advices are that Cassius M. Clay, and the 4000 who supported him for Governor on the emancipation question, are all going for Scott.

From Ohio, there is positive information that the Whigs of the Western Reserve, contrary to Mr. Giddings' statement, will, to a man, go for Scott; and, besides, the Cass Democrats of Ohio are very sore and cold as to the nomination of Pierce.—From Wisconsin, there is information that Scott will sweep that State. From Indiana, the accounts are decidedly in favor of Scott. Gen Lane will take the field to rouse the State, but with faint hope of success. A. Y.

La Crosse and Milwaukee Railroad.

On Thursday morning last, notice was given to our citizens that a public railroad meeting preparatory to opening the books of the La Crosse and Milwaukee Railroad, would be held at the Court House at 8 o'clock in the evening. The hour arrived, the Court House was full, and Hon. Moses M. Strong, from Mineral Point, made the best Railroad speech ever delivered in the State.—We took notes of his speech, and may hereafter write them out, but for the present suffice it to say, his remarks were so true, his reasoning so palpable, that his conclusions were clothed by none. He commenced with the progress and improvements of the age, and next proved the inevitability of the La Crosse and Milwaukee Railroad—its inevitable extension to the St. Peter's Road and so on over the Rocky Mountains, or to the Red River to the North.

Mr. Strong spoke very satisfactorily of the feasibility of this road, from surveys made by himself and Mr. Nash, an Engineer from Milwaukee, estimated the cost not to exceed fifteen thousand dollars per mile, the whole distance. His comparison of the relative advantages that a road from La Crosse to Milwaukee would have over a road running East from the Mississippi, one hundred miles south, was particularly interesting and impressive. His happy allusion, in theological language, to the stocks of the different States, created much cheering, while it left a deep impression upon the minds of all present. In short it was just such a speech as we wish every citizen of the State could hear. After Mr. Strong got through with his remarks, the books were opened, and within three quarters of an hour, the whole fifty hundred shares necessary to organize the company were taken, and five per cent paid in, and the books closed until August, subsequent to the meeting called in this paper at Madison, to choose Directors.

With but very few exceptions, the shares were all taken by citizens of Milwaukee, La Crosse, and on the route. There were not shares enough to supply all who had come from a distance to subscribe. This road is now bound to go ahead. —*La Crosse Times.*

DAILY SENTINEL.

FOREIGN NEWS BY THE AFRICA.

ENGLAND—PARLIAMENTARY PROCEEDINGS—The House of Commons, in its morning sitting on Thursday, cleared off considerable routine business.

Mr. Keogh, an Irish member, took occasion to complain of the Queen's proclamation forbidding Roman Catholic priests to wear ecclesiastical vestments in public.

Mr. Cochrane asked whether the attention of Government had been drawn to an address recently issued to the working classes by Mazzini, which he (Mr. Cochrane) characterized as "containing sentiments of language as respected England, and insulting as regarded foreign powers." The question not being in order, the Hon. Member gave notice of a motion of the subject.

On Friday petitions were presented from the Australian Colonies against the transportation of convicts to Van Dieman's Land; also from the Legislature of New South Wales for the redress of certain grievances.

The Cunard Company have arrangements nearly completed for the establishment of their new line of steamships to Australia, via Panama and New Zealand, and in connection with the mail service between Liverpool and the United States. Their expectation is to secure the carriage of the mails between England and those places, and also to procure from the French Government, a contract for Tahiti.

IRELAND.—The proclamation against Romish processions has aroused a great deal of indignation, coming as it does at so opportune a moment for Protestant electioneering.

A Court Martial at Lyons has convicted M. Lancher Cremieux's land agent of a conspiracy to murder all the officers of the 12th Regt. No particulars of this singular affair are given, except that four sergeants of the Regiment, and two civilians were implicated and are found guilty.

Latest accounts, received on Saturday morning, state that the Council of State has come to a decision respecting the Orleans property. It has adopted the conclusions of the Government Commission, depriving the judicial tribunals of the right to decide in the case, and reserves to the civil jurisdiction the examination of all questions that may arise relative to private property which the Princes of Orleans hold in value of hereditary right. The President has signed this decision.

A revolt has broken out in Algeria. On the 2d a tribe of Arabs, numbering 1,000 rose and attacked a camp of French workmen, killing some and causing the others to flee. The insurgents afterward marched on Gheima, and on the 4th and 5th had an engagement with the troops from Bora and Constantin, in which the French appear to have been worsted. At all events the insurgents crossed the river Ouled Saha, and had advanced to Boussora. Additional troops were expected from Constantia.

ITALY.—A bill is introduced in the Chamber of Deputies at Piedmont, for the establishment of marriage by civil contract. By way of settling the difficulty between the Papal See and Piedmont, an administrator is to be named for both the spiritual and temporal affairs of the dioces of Turin—M. Franzoni to retain the title of Arebbi shop. M. Arnat had been presented to the diocess by the Government, but the Pope refuses to ratify the nomination.

Signor Galli, Minister of Finance at Rome, is laboring under the imputation of twelve serious charges of peculating the public funds. Cardinal Antonelli promises to investigate the matter.

Murray is still in confinement at Ancona. Sir Henry Hulwer has left Florence for Rome, probably in endeavor to procure his release.

SPAIN.—The Alcaldes of all the towns in the Province of Cadiz are to hold a meeting, under the presidency of the Civil Governor, to devise a system of Railroads for the Province.

GERMANY.—The Post Ampt Gazette of June 12 states that Austria has officially announced to Prussia its suspensions of all negotiations relative to a customs treaty with that power. A notification to that effect has been likewise transmitted to "the Darmstadt Coalition." On the other hand (we gather from the Independence) there is a feeling in Berlin that M. Schoenhausen, who has gone to Vienna temporarily to replace the Prussian Minister, may be charged with overtures for a direct commercial union with Austria, without reference to the German States.

Melancholy Catastrophe.

New York, July 6.

As the steamer was going into Vanderbilt's landing at 4 P. M., yesterday, with a large number of passengers, a large number was waiting on the bridge to return. Suddenly the bridge gave way precipitating several hundreds into the river—12 bodies were recovered up to 11 o'clock last night: 11 of whom were women and children.

SECOND DESPATCH.

Five additional bodies have been recovered—a coroner's inquest has been held and a verdict rendered of, Death by giving way of the bridge.

It is supposed that at least 25 lives were lost—perhaps more.

Baltimore, July 6.

The Liberia Packet arrived at Baltimore on Saturday with Liberian dates to the 10th of May.

No news of importance.

President Roberts and Lady left Monrovia on the 1st for Medford.

The commander of the British forces had raised the blockade of all the ports in the Bights of Benin.

A treaty of commerce had been concluded between France and Liberia.

U. S. Brig Bainbridge arrived at Monrovia on the 14th of May, and the sloop Dale on the 24th

Mr. Webster Opposed to an Independent Nomination

Washington, July 2—9½ P. M.

Mr. Webster, it is stated, has expressed himself as strongly opposed to the movement in favor of an independent nomination. He sees that it would be a miserable failure, and he has no desire to be placed in such a mortifying position. The President has written a very touching letter to the Secretary Graham upon the occasion of his resignation.—*Cor. of the N. Y. Herald.*

THE FINE ARTS.

SIGNOR VITO VITI, who for the last forty years has been familiarly known in the United States as an extensive importer of Marble Statuary, Alabaster Vases, Oil Paintings, Curiosities, and objects of Antiquity from Rome, Florence, Milan and Genoa, has started a manufactory of packages of his beautiful wares, which are now in preparation, and in a few days will be ready for inspection. This is a rare chance for citizens to procure articles of refinement for the decoration of their halls, parlors and sleeping apartments. Rich sofas, ottomans, &c., may partially effect that object, but they have not the refining influence possessed by Statues, Intaglios and Brasso relievos.

The Signor's name, matured by a practice of forty years in the business qualifies him for any, and acknowledged by many of the most respectable citizens of Boston, Philadelphia, New York and New Orleans, will be a sufficient guarantee that each and every article will be adapted to the refined taste of the Ladies and Gentlemen of Milwaukee and vicinity.

I have rented, for the purpose of arranging the above articles, the Store Room formerly occupied by Messrs. Cowles & Ross. Due notice will be given when they can be examined and the day of sale.

KENOSHA WATER CURE.

DR. H. T. SEELEY, late of Chicago, has recently fitted up the large and commodious buildings, known as the National Hotel, at Kenosha, Wisconsin, and is now prepared to receive patients who wish to be treated on strictly Hydropathic principles.

DR. SEELEY has had several years experience in this mode of practice and the facilities for administering the cure, enables him to say with confidence to those who are seeking the recovery of their health by this efficient method of cure, that he will spare no pains to render their residence here as pleasant and agreeable as can be obtained at any Water-cure in the United States.

The house is sufficiently retired to make it pleasant, and commands a fine view of the Lake. The water used is soft and pure. For further information address

Graefenberg Medicines

HAVE YOU USED THEM?

AS popular medicines, prepared carefully and scientifically, and adapted to the wants of the American public, they have no superior. They are confidently represented to be, *genuine*, and free from *Humbug*, intended as much to *cure* as to *sell*. When once used, they are universally liked, and *should be*, and *generally are*, preferred to all other valuable aids to *Health*. In many instances the *regular family* recommend, and use them, such is their force over the complaints of those to which they are opposed to the circulars of POPULAR MEDICINES. *No Family Physician*, in ordinary cases, is needed by those who own the *Graefenberg Manual of Health*, and strictly abide by the directions in the use of the Graefenberg Medicines.

A word to the *wise* is sufficient, without the publication of certificates, which we have of the most flattering description from the highest sources, of the Graefenberg Medicines.

We will enumerate in conclusion the various preparations of this Company, which may be found in every town in the State and throughout the Union.

THE GRAEFENBERG SARSAPARILLA, is purely vegetable, no *big bottle humbug*, or pleasant drink, but *an Alterative and a Medicine* of the greatest power in promoting an entire change in the blood. The sure indication of impurities of the blood which are the seeds of almost incurable disease in man.

THE GRAEFENBERG DYSENTERY SYRUP—Public approbation has stamped this article as the *Cholera Infantum Syrup*. It has checked the ravages of *Cholera* in its last season, and for bowel complaints it has no equals.

THE GRAEFENBERG VEGETABLE PILLS are a perfect substitute for the prevention and cure of *Fevers* in general. They are gently, naturally and surely and in connection with our *Health Bitters*, are a certain remedy for the fever and ague. Our *Health Bitters* have a wonderful effect in invigorating a debilitated system.

THE GRAEFENBERG GREEN MT. OINTMENT.—In reducing inflammation, healing all kinds of sores, and curing piles, it is confidently recommended this salve to all as being most efficacious. In the *Mineral Region* of our State its merits are universally appreciated.

THE GRAEFENBERG EYE LOTION—An unpretending article, but one which meets with large sales in the West, and has been the humble means of relieving thousands from intolerable pain arising from injured or diseased eyes. Try it.

THE GRAEFENBERG UTERINE CATHOLICON—This is perhaps the most valuable medicine of this Company, inasmuch as it reaches cases despaired of by the most scientific physicians. For Prolapsus Uteri, and all complaints incident to *Females*, it will be found a safe and speedy remedy. Let no *spirited woman* be deterred by delicacy or pride from giving it a fair trial. Inquire of the agent for the pamphlet in relation to it.

THE GRAEFENBERG FIL OINTMENT, CHILDS PANACEA, &c., are all invaluable remedies, directions for which are all the enclosed in the pamphlets.

SALAMANDER SAFES.

WILDER'S PATENT AND RICHUS PATENT COMBINED.

$100,000 SAVED.

FIRE in Pearl Street and Fletcher Street, New York.—Three Stores and their contents Destroyed. Deeds before world.

RICHUS SAFES AGAIN!

ELEVEN Safes of different makers consumed, with their contents! The Safe made by Rich & Co. defied the flames and kept the rest its contents without a mark of fire upon them!

MR. GILBERT'S LETTER.

NEW YORK, Dec. 20, 1851.

MESSRS. STEARNS AND MARVIN, successors to C. Rich & Co., No. 145, Water Street, New York—Sirs, when the fire was consuming the store of Hudnut, No. 214, Pearl Street, I was down in Rochester County, testing a new cleaning apparatus in connection with my Excelsior Threshers, and did not read the account until I was there. It was a terrible fire to save any books which were placed in one of your Safes purchased from Mr. Marvin some years since. My hears were not allayed when I found it necessary upon his request to open the Chilson Water Mill to run, that I might effect to commence operations under which it required 24 hours of labor and application to raise the Salamander from the cellar bed. You may judge of my anxiety during this delay, and my agreeable satisfaction upon seeing the safe in the presence of a number of gentlemen, to find my books and papers saved, and legible as they were previous to the fire. The intense heat to which the Safe was subjected, can be conceived from the condition of another safe, (not a Salamander) of which an iron division chance only remained, and not a vestige of a book, paper or valuable contained in the same either, on the second floor, from which it fell upon grates of earthen ware in the cellar, the ruin of which I can assure you was most painful. Had been reversed, not even the skeleton would have remained. My loss over the insurance is $1,600, yet the salvation of my books is your testimonial, with the correspondence of which and important documents which could not be duplicated, has fully compensated me.

It will afford me great pleasure to exhibit the new safe purchased of you, and explain its merits, at my present office, No. 251 Pearl street, where I shall remain until the new building, No. 216, is erected.

Yours respectfully, JOSEPH G. GILBERT.

The undersigned invite country merchants and those interested in the preservation of their books from fire, (the particular object for which Richus Safes are made) to call at the depot 146 Water street, New York, to see the interior of Mr. Gilbert's safe with the books undisturbed, which he has kindly permitted to remain for the satisfaction and gratification of the public.

GRIST MILLS.

THE subscribers, thankful for past favors, beg leave to announce that they have recently added the Foundry business to their former occupation of Mill Wrights and Millers, and are now prepared to furnish castings of any description, in either branch, on terms that will defy competition.

In offering our Stoves to the community, we do so with the full confidence that we can give them a better article for the money than can be purchased at any other place, both as to patterns, manufactured with care and finish, the very best materials. The following are a few of the articles we offer, and recommend that they will give satisfaction in every particular, viz:

THE ECONOMIST
DOUBLE OVEN COOKING STOVE.
(Which received the First Premium at the State Fair, lately held at Janesville.)

Possesses great advantages over every other stove, for plain flues and direct application of heat, being so arranged that the fire in both ovens can be used at pleasure, or either—half the time of any other stove in use, and I wish to add the fuel not consuming over four cords of wood in one year.

The TRIUMPH, similar oven, takes its bore wood. It an excellent stove—one that has been well tested, and given general satisfaction.

The JUNIOR PARLOR is different in its construction from any other made in the arrangement of the fire back—being calculated to be a cross fire arrangement.

The JUNO PARLOR is designed to be either wood or coal, and has decidedly the neatest arrangement ever offered to the public, having all the conveniences of the above mentioned with the beauties of the parlor grate. The Juno is a splendid stove, and will be found to be a great saving in fuel. It consists of a small fire-pot in front, with the entire front above and below the same being expended on the oven, which is large and well arranged. It is a splendid wood stove, three doors, and so arranged that it can be used very simply for coal or sight. It is equally ad
